< Olga Adler Interiors

Olga Adler designs homes that are private retreats and public statements for her successful clients with busy schedules and high expectations. Born and educated in Europe, Adler is highly influenced by art and fashion trends. She draws inspiration from her surroundings and extensive travels, although she says the biggest factor in her designs are her clients—their lifestyles, aspirations and interests. She draws praise for her refreshing approach to classic design, her use of color and love for unique accessories. Adler has honed in on what she considers to be the most important element in designing interiors: creating stylish rooms that, just like the best clothing, are crafted with a particular person in mind—custom and unique. **Olga Adler Interiors | 470 Main Street, Suite 304, Ridgefield, CT | By appointment only | 203.438.4743 | olgaadlerinteriors.com**
